

GARRETT-KEYSER-BUTLER CSD TECHNOLOGY DEPARTMENT

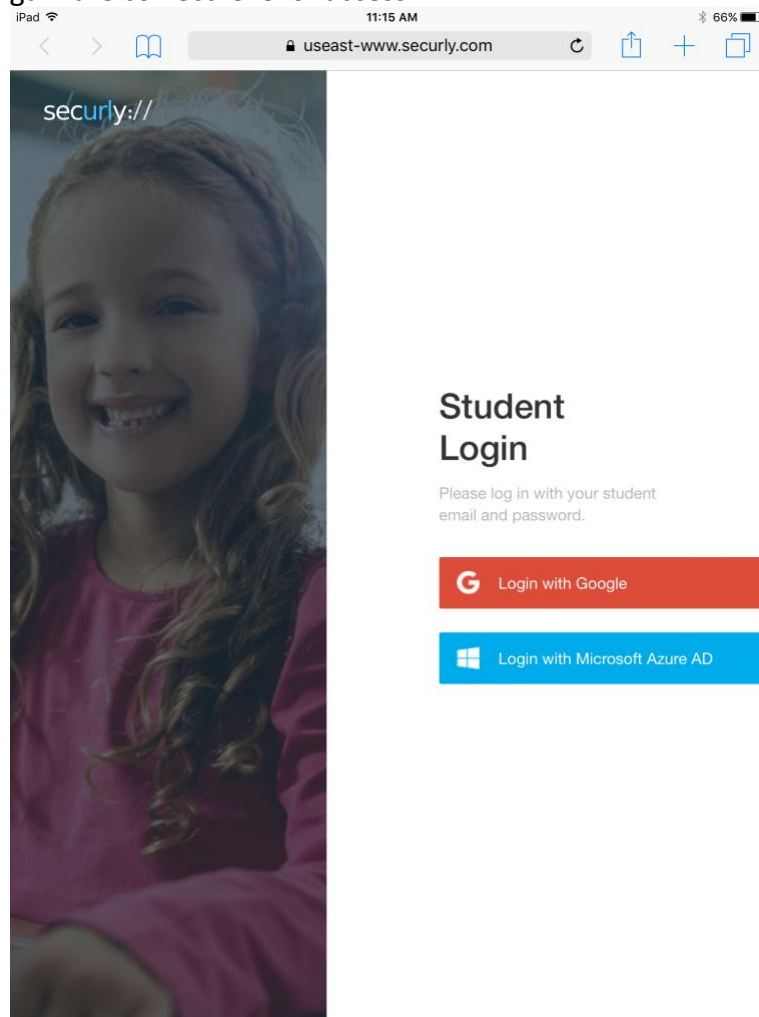

General Info

Effective 12/18/17, changes to the Garrett-Keyser-Butler CSD Internet Filter are outlined below that will both affect devices while on GKB Wifi and home Wifi (for school-issued devices only):

- Any BYOAD device or personal mobile device (Staff cell phones) that wish to gain access to the Garrett-Keyser-Butler CSD WiFi for Internet access will need to install a Certificate on their device (Instructions were sent via email and also available on GKB website).
- All GKB-issued devices have had Certificates pushed to them

Gaining Proper Internet Access on GKB Network or on home Network

- If students or staff see the following login page (even though it says “Student Login”), you will need to type in your Google GKB-issued school account (email & Google Docs/Drive) to gain the correct level of access

- You can make Safari save the email address/password so that it does not have to be typed in
 - iPad – Settings/Safari/AutoFill/Names and Passwords (needs turned on)
 - MacBook – Safari/Preferences/AutoFill/User names and passwords (box needs checked)
